*At Logan Regional Medical Center, our goal is to deliver the highest quality healthcare available in the southern West Virginia and eastern Kentucky region as we seek to make our communities healthier.*

—Kevin Zachary, CEO

## At **Logan Regional Medical Center,**

we spent 2016 exploring ways to advance our mission of making the communities of southern West Virginia and eastern Kentucky healthier. And by focusing our efforts on creating a place where people choose to come for healthcare, physicians want to practice and employees want to work, our legacy of caring for our communities is stronger than ever.

**Inviting the best physicians into our communities and supporting them** is one of the most important drivers of our ability to offer the best possible healthcare to the region. During the past year, Logan Regional added **a new hospitalist** to our staff.

And while **delivering high quality patient care close to home** is the single most important contribution we make, there are many other ways we're making a positive impact in our communities.

In **creating excellent workplaces for our 680 employees**, we made **\$5,471,045 in capital improvements** in 2016, including new surgery towers, scopes, C-Arm for our pain clinic, Optima CT system, CT injector and ultrasound system, and facility improvements including a new roof and parking lot paving; and we managed and distributed an **annual payroll of \$41,738,469**.

We are proud to take a **leadership role in our communities** and are committed to delivering needed healthcare to everyone, regardless of their ability to pay. In fact, in 2016 we donated **more than \$4.52 million in healthcare services to those in need**.

We are also committed to **ensuring fiscal responsibility** – both at the hospital and in the community. In 2016, we paid a total of **\$741,010 in taxes**, as well as provided numerous sponsorships and donations to local organizations.
