[LoganRegionalMedicalCenter.com](http://LoganRegionalMedicalCenter.com)

2023 was an exciting year for Logan Regional Medical Center (LRMC), a year of accomplishments that will pay dividends this year and beyond. For instance, we commenced the first of its kind, separately accredited rural track general surgery residency program in partnership with the Marshall Community Health Consortium and welcomed our first three residents. We also began renovations of our Primary Care Center and held a ribbon cutting for the state-of-the-art facility in January 2024.

These represent just two examples of LRMC investing in our hospital and in effect, investing in our community. We view ourselves as active partners in the health and well-being of the region and want to be the preferred healthcare provider for those who live and work in the area. So, each year – as this report details – we provide charitable care, recruit providers to strengthen our services, invest in healthcare technologies and equipment, and contribute to local not-for-profits who share our goal to uplift the community. While our primary mission is improving your health, we can also positively impact the area as one of its largest employers and taxpayers.

We are honored to be entrusted with your care and proud to be able to make a difference in Logan and the surrounding communities we call home. Thank you for choosing LRMC, and for allowing us to be your partners in better health and a better community.

Sincerely,  
David Brash, FACHE, CPPS  
CEO, Logan Regional Medical Center

## 2023 Success Spotlight

Inviting the best possible providers into our community and supporting them is essential to ensuring access to high-quality care. In 2023, we added 82 providers in such areas as Emergency Services, Hospitalists, OB/GYN, Primary Care and Telemedicine (covering specialty areas that include infectious disease, neurology and psychiatry).

By investing in our facilities, we're helping to ensure that we continue to meet our community's healthcare needs. Last year, we spent \$2.3 million in capital improvements, including renovations of the first floor of the Medical Office Building; construction of the RHC Logan Primary Care office; and the purchase of such items as a hematology analyzer, centrifuge, cleaning equipment, ultrasound transducer, new patient/employee shuttle bus, new physical therapy equipment, five Tablo machines to bring dialysis services in-house, and a portable oximeter for the cardiac catheterization lab.

We strive to create an environment where talent is recognized, job satisfaction is valued and our employees can effectively use their skills to provide high-quality care and service.

In 2023, we provided about \$1.5 million in services to those in need of healthcare but without the means to pay.

We are proud to be a leader in the Logan area, and our dedication to ensuring fiscal responsibility extends both to our hospital and to our community.

## In 2023, we...

added **82 affiliated providers**

made more than **\$2.3 million in capital improvements**

distributed a **payroll of over \$46.5 million** to approximately 700 employees

donated nearly **\$1.5 million** in services to those in need

paid nearly **\$6.7 million in taxes**
